	This is to certify that I have examined the	foregoing applicat	ion and do hereby	grant the same subject to the		
	wing limitations and conditions:	loregoing applicat	ion, and do hereby	graph the same, subject to the		
underground source as heretofore granted under Permit 51361 is issued subject to the terms and conditions imposed in said Permit 51361 and with the understanding that no other rights on the source will be affected by the change proposed herein. The well shall be equipped with a 2-inch opening and a totalizing meter must be installed and maintained in the discharge bipeline near the point of diversion and accurate measurements must be kept of water placed to beneficial use. The totalizing meter must be installed before any use of the water begins or before the proof of completion of work is filed. If the well is flowing, a valve must be installed and maintained to prevent waste. This source is located within an area designated by the State Engineer pursuant to NRS 534.030. The State retains the right to regulate the use of the water herein granted at any and all times. This permit does not extend the permittee the right of ingress and egress on public, private or corporate lands. The total combined duty of water under Permits 59133, 59134, 59136, 59137, 59138, 59140, 59141, 59142 and 59143 shall not exceed 950.0 acre-feet annually. The issuance of this permit does not waive the requirements that the permit holder obtain other permits from State, Rederal and local agencies. (CONTINUED ON PAGE 2) The amount of water to be changed shall be limited to the amount which can be applied to beneficial use, and not to exceed 0.10 cubic feet per second. but not to exceed 20.0 acre-feet

APPROVAL OF STATE ENGINEER

This is to certify that I have examined the foregoing application, and do hereby grant the same, subject to the following limitations and conditions:

This permit to change the place of use and manner of use of the waters of an underground source as heretofore granted under Permit 51361 is issued subject to the terms and conditions imposed in said Permit 51361 and with the understanding that no other rights on the source will be affected by the change proposed herein. The well shall be equipped with a 2-inch opening and a totalizing meter must be installed and maintained in the discharge pipeline near the point of diversion and accurate measurements must be kept of water placed to beneficial use. The totalizing meter must be installed before any use of the water begins or before the proof of completion of work is filed. If the well is flowing, a valve must be installed and maintained to prevent waste. This source is located within an area designated by the State Engineer pursuant to NRS 534.030. The State retains the right to regulate the use of the water herein granted at any and all times.

This permit does not extend the permittee the right of

ingress and egress on public, private or corporate lands.

The total combined duty of water under Permits 59133, 59134, 59136, 59137, 59138, 59140, 59141, 59142, and 59143 shall not exceed 950.0 acre-feet annually.

The issuance of this permit does not waive the requirements that the permit holder obtain other permits from State, Federal

and local agencies.

Any well drilled under this permit shall be drilled in what has been described in the United States Geological Survey Water Supply Paper 2263 as the intermediate alluvial aquifer. In no instance shall the seal on this well be less than 100 feet below ground level.

Monthly records shall be kept of the amount of water pumped from this well and the records submitted to the State Engineer on a quarterly basis within 15 days after the end of each calendar

With the issuance of this permit any well drilled under previous base rights must be plugged and abandoned as stated under NAC 534.420 in the Regulations for Water Well and Related Drilling.

(CONTINUED ON PAGE 3)

Page 2 59142

(PERMIT TERMS CONTINUED)

Any well drilled under this permit shall be drilled in what has been described in the United States Geological Survey Water Supply Paper 2263 as the intermediate alluvial aquifer. In no instance shall the seal on this well be less than 100 feet below ground level.

Monthly records shall be kept of the amount of water pumped from this well and the records submitted to the State Engineer on a quarterly basis within 15 days after the end of each calendar quarter.

With the issuance of this permit any well drilled under previous base rights must be plugged and abandoned as stated under NAC 534.420 in the Regulations for Water Well and Related Drilling.

The amount of water to be appropriated shall be limited to the amount which can be applied to beneficial use, and not to exceed 0.10 cubic feet per second, <a href="but not to exceed 20.0 acre-feet annually.

Work must be prosecuted with reasonable diligence and be completed on or before:

May 6, 1998

Proof of completion of work shall be filed before:

<u>June 6, 1998</u>

Water must be placed to beneficial use on or before:

May 6, 2001

Proof of the application of water to beneficial use shall be filed on or before:

<u>June 6, 2001</u>

Map in support of proof of beneficial use shall be filed on or before: \mathbf{N}/\mathbf{A}

IN TESTIMONY WHEREOF, I, R. MICHAEL TURNIPSEED, P.E.,

State Engineer of Nevada, have hereunto set

my hand and the seal of my office,

this 28th day of, April A.D. 2000

State Engineer
